Motivation Through Organisation

Pocket Systems

WEIGANG - Competent Solutions

For **WEIGANG**, visualisation – displaying information, goals, processes and results in a simple and understandable way – has always been an important issue.

Through decades of experience in manufacturing and sales of organisational solutions, a wide range of products and applications was established, which offers our customers and interested parties a large spectrum of individual solutions.

Our **regional sales partners** are available to assist you with their professional competence in the following fields:

- visual management
- KANBAN, CIP, TQM, TPM, etc.
- planning
- controlling
- scheduling
- customized solutions

WEIGANG...

Since 1945 **WEIGANG** has been producing classic organisational means.

The production facilities comprise metal, wood, plastics and paper processing.

Our top priorities are **high-quality products and satisfied customers.**

We combine production know-how with the experience from the most various manufacturing sectors and thus offer a wide range of products which meets all of our customers' expectations. However, it is important that every single member of our staff has an idea of quality and reliability.

Therefore, we have been focusing on complying with the DIN ISO 9001 standard and were certified as early as in May 1997.

... where ideas turn into products

3 The system

Datoclip+

Organisational pockets establish structure within your tasks and help you in a reliable and timely handling. They are visual reminders of deadlines and their completion so that you are clear-headed to handle other important tasks.

The header with the patented clip mechanism is the core of Datoclip+. Thus, head and pocket parts can be easily exchanged.

Among the numerous pockets, folders and files, which can be combined with the clip-mechanism, there is a solution to nearly every task.

The benefits...:

- Header with coloured grid strips and week/day scaling
- Header with customized scale generated with DatoPrint
- File identification with colour-coded index labels
- Visualisation of key points with signal tabs
- Sliding of signals underneath the header bar to avoid accidental misalignment
- Status indication with sliding signals
- Pocket headers with support or scheduling bar
- combination of pockets, folders and binders
- exchangeable pocket parts
- fast access due to loose sheet filing
- chronological filing with strap fasteners
- structured filing with index dividers and strap fasteners
- easy filing, flipping through and removal of documents
- custom-made pockets available, starting at an order quantity of 300 pieces

... any questions?

We are glad to help!

...For the realization of customer ideas and requests, our well-versed regional sales partners are available to offer customized organisational solutions.

Over decades, our factory has developed from a printing house to one of the biggest manufacturers of organisational solutions, with metal, wood, plastic and paper processing departments.

Here, we realize our customers' requests from prototype to serial production.

Documents of the TPM process are placed in pockets and 4-ring binders with dividers and visualize achieved levels.

The coloured lettering of the scale matches the colours of the TabPockets. The diagonal cut on the TabPocket provides quick access to the loosely filed sheets.

DatoDisp

5

Keep it small and simple

Important things in view

Organisation and communication are two important pillars for business success. An elaborate and consistent workflow management increases the cost-effectiveness, a plausible internal communication unlocks the creative potentials of the employees and increases their motivation for the benefit of the entire company.

Looking at practical experience

Project deadlines are often not met due to the fact that employees have no overview and lose the overall context. Only the identification of contexts combined with professional knowledge allows a quick response time when plan variances occur. The visualisation of important key points at the header helps keeping the overview.

Setting signals

When the mind is clear, the soul grows wings – a fact which is not only rewarding in business negotiations, it also helps in many other areas to use people's creativity purposefully. However, the truth is that it is relatively easy to "fly". With a systematic, structured approach and the right visualisation tools, gruelling detail work turns into routine. Sufficient ballast is thrown overboard in order to be able to start. In this process, the Datoclip+ pocket systems are powerful tools. It is fun to work with them. They offer a wide range of application and at the same time, they are extremely simple and safe to handle.

... any questions?

We are glad to help!

Active filing

Whether you prefer the time saving loose sheet filing recommended by Kaizen or the safety of a binder for chronological filing, with Datoclip+ the entire project file is available in an up-to-date way.

Direct access

Alphabetical and numerical order combined with coloured dividers eliminates the search for individual files. The pocket's diagonal cut ensures easy insertion and removal.

Simply visualising

With the setting of coloured milestones, every file notifies itself. Customized scales inserted in the pocket header show immediately which project it is. When a project is finished, the scale gets replaced, and you can start again according to the motto – keep it small and simple.

Offer Management

The active follow-up of offers is the key to successful sales and marketing. As many orders have to be tracked simultaneously, a systematized control of deadlines is indispensable for every sales representative.

The use of signals allows a quick overview of current offers and their individual status.

Datoclip+ informs about:

- the first contact
- the date of the offer submission
- the follow-up dates
- the current progress

7 Datoclip+ for active files

Customer Service

To receive follow-up orders and to win satisfied, long-term customers by good customer service must be every company's goal. This requires an active and offensive customer service, which in turn demands a customer file including all documents, always reminding you of the next activities.

With Datoclip+ in view

- the overview of the current customers
- the last contact with the customer
- which contact was it
- when is the next activity
- what is planned
- which deadlines were met

Purchase Management

Today, an efficient purchasing department is more than ever a requirement for the overall success of a company. What counts is not only a favourable purchase price, but also on-time delivery and continuous quality. For this, Datoclip+ is the ideal solution as it allows quick access to all orders and the related documents as well as an active tracking of deadlines and schedules. Thus, any contingency at the order processing is eliminated.

Composition and function

For the monitoring of deadlines in the purchasing department, Datoclip+ was selected because the coloured signals are easy to adjust. They are slid underneath the transparent cover of the scheduling bar; this ensures that accidental misalignment is avoided.

Every supplier and every purchase order gets a pocket. The names of the suppliers are written on the index label in alphabetical order.

Purchase, delivery and delivery reminder dates are marked with signals in different colours. A sliding signal which is also moved underneath the pocket header shows the current status of the order.

With Datoclip+ in view

- active suppliers
- open orders
- order and delivery dates
- delivery reminders
- current status

Order

In order to coordinate the requests of the departments marketing, sales and production, the production planning and control department generally exercises two planning and control functions, and combines them to one overall system. The workplace-related control is carried out with the help of the control center and the work center occupancy; the order-related control with the help of organisational pockets.

The advantage Datoclip+ offers is that with one single organisational means all required order-related documents are quickly accessible and at the same time, deadline compliance can be controlled.

Composition and function

The pockets are kept order-related according to order numbers, that is sorted according to product, component groups and individual components which are differentiated by different-coloured index labels (white = product, blue = component group, pink = individual component).

With the aid of signal tabs, the deadlines for material provision, the start of important manufacturing steps and the delivery date are marked at the pocket header. The current work progress is monitored with a sliding signal underneath the pocket header. The grid strips in the pocket header are clearly laid out, in below figure weeks 1-53 and weekdays Mon – Fri.

Datoclip+ informs about:

- the total number of open orders
- the number of production orders pertaining to a customer or stock order
- provision date
- starting and finishing date
- completed tasks
- the status

Every project, each task and every file has different requirements concerning the related processes.

For the organisation of the documents, the Datoclip+ product line offers pockets, folders and binders with different types of filing systems as for example loose-leaf-filing, strap fastening or standard-type filing system.

9 Datoclip+ for individual files

With customized grid scales meeting the respective requirements, relevant milestones are visualized and provide information about the status of the tasks at any time.

Scales created with DatoPrint are emphasized with coloured signals and signal tabs which act as a “visual alarm clock”.

... any questions?

We are glad to help!

Quick Find is the pro-active project management system:
Deadlines can be visualized intelligibly, are always up-to-date and bottlenecks are literally “tangible”.

**Quick Find benefits,
quick overview on:**

- all projects and activities
- the complete paperwork including notes
- visualized starting and finishing dates
- project differentiation with coloured grid scales

Quick Find

10

Maximum transparency...

...of all project stages and the corresponding deadlines are the basic requirements for an active and efficient project management.

Active project management means acting instead of reacting; it means that possible bottlenecks are recognized early in order to counteract timely.

The pocket system with the scheduling bar creates the perfect conditions for this purpose.

It ensures not only a clear and easy scheduling for every single project but also for the entire project stock.

The Datoclip+ system

- Two-In-One folder for quick access to all files
- simple subdivision of all documents with dividers
- easy filing, removing and flipping through papers with strap fasteners.
- outside pocket at the front for project map
- additional file mechanism
- signalling of deadlines with coloured tabs
- patented clip mechanism for easy exchange of header and pocket parts.

Starter set Datoclip+ Quick Find

consisting of (our recommendation):

- 20 Datoclip+ Two-In-One folders A4 landscape grey blue with scheduling and support bar
Item no. 26 23 015
- 20 dividers, plain
Item no. 24 48 101
- 100 grid strips white
Item no. 26 94 001
- 1 sheet index labels, white
Item no. 26 81 102
- 100 signal tabs in 5 assorted colours
Item no. 26 63 255

Datoclip+ Pocket

with scheduling or support bar, hard foil backing, grey blue, transparent pocket with welded edge folding, capacity approx. 10 mm, 25 pieces per pack

W = 313, H = 220 mm for A4 landscape

with scheduling bar available in
grey blue Item no. 26 22 375

Lean Management

In recent years, methods of lean management and lean administration have been increasingly accepted in many fields of the working world. Lean means “creating values without waste” – with the aim of ideally utilizing resources, assuring customer satisfaction and permanently improving the competitive position of enterprises. Two new tools for optimising administrative processes are for example the TeamBoard for goods receipt or the OrgaBoard for order distribution at the development department.

TeamBoard

consisting of a graphite-coloured base with a size of:

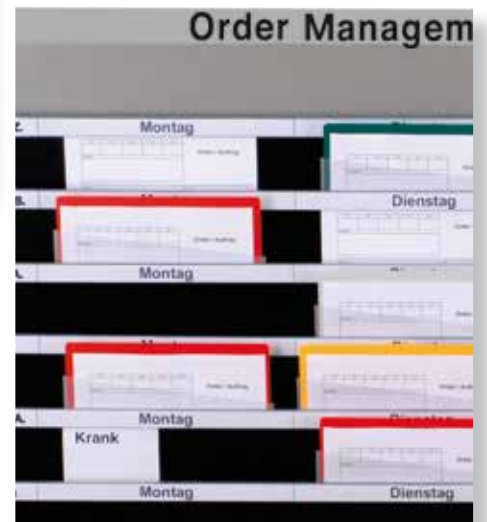

W = approx. 1900 mm

H = approx. 850 mm

with 35 silver-coloured (RAL 9007) compartments of the cascading display system.

The labelling of the title text strip as well as the column text strip can be freely selected.

Item no. 81 19 900

21 OrgaPockets

OrgaPockets

Made of coloured plastic, can hold documents up to a thickness of 5 mm in transparent bags on the front and back side. Smart assignment of colours opens up further information levels catching the eye on the spot. The colour code can provide information about processing priorities, complaints, etc.

Magnetic Frames

Magnetic Frames are available in five Colours

made of anti-reflective, transparent foil. Magnetic through 3 magnetic strips, one short side open, usable in landscape and portrait format.

For size A4

Outer dimension: 240 mm x 326 mm
5 pieces = 1 pack

red	Item no. 82 50 836
green	Item no. 82 50 837
blue	Item no. 82 50 838
yellow	Item no. 82 50 839
silver	Item no. 82 50 872

For size A3

Outer dimension: 326 mm x 450 mm

red	Item no. 82 50 846
green	Item no. 82 50 849
blue	Item no. 82 50 848
yellow	Item no. 82 50 847
silver	Item no. 82 50 873

Document Holder

made of anti-reflective acrylic, with protruding top edge, for quick and easy placement, backside self-adhesive for the following sizes:

A4 portrait	Item no. 07 00 017
A4 landscape	Item no. 07 00 020
A3 portrait	Item no. 07 00 023
A3 landscape	Item no. 07 00 026

Document Dispenser

made of crystal-clear plastic, back side magnetic or self-adhesive, capacity approx. 35 mm, for the following sizes:

Size A4 portrait, magnetic
H = 250 mm, W = 225 mm, D = 40 mm
Item no. 89 50 425

Size A5 landscape, magnetic
H = 135 mm, W = 222 mm, D = 40 mm
Item no. 89 50 426

Size A5 portrait, magnetic
H = 165 mm, W = 161 mm, D = 40 mm
Item no. 89 50 427

Size A6 portrait, magnetic
H = 165 mm, W = 112 mm, D = 40 mm
Item no. 89 50 428

Size A4 portrait, self-adhesive
H = 250 mm, W = 225 mm, D = 40 mm
Item no. 89 51 037

Size A5 landscape, self-adhesive
H = 135 mm, W = 222 mm, D = 40 mm
Item no. 89 50 933

Size A5 portrait, self-adhesive
H = 165 mm, W = 161 mm, D = 40 mm
Item no. 89 51 253

Size A6 portrait, self-adhesive
H = 165 mm, W = 112 mm, D = 40 mm
Item no. 89 51 254
